SUMMARY

Applied economist and researcher who turns rigorous social science into decisions and impact for non-academic audiences. At Stanford Impact Labs I lead impact-measurement strategy for a \$43M research portfolio, support investment due diligence and grantmaking, and led the organization's AI adoption—including a piloted, formally evaluated AI-assisted grant-review system. A decade of field and applied research across global development, governance, and education, communicating evidence to policy, philanthropic, and academic stakeholders.

EXPERIENCE

Impact and Learning Manager, Stanford Impact Labs 2024 – present

- **Lead impact-measurement strategy** across a portfolio of 60+ research projects and \$43M in funding: built the organization's approach to portfolio impact assessment—balancing lightweight, portfolio-wide metrics with targeted social-return-on-investment (SROI) analysis—and produce legible, data-driven representations of impact for communications, storytelling, and fundraising.
- **Support investment strategy and grantmaking**: evaluate research proposals and run due diligence to inform funding recommendations, serving as investment lead; helped design and select grants for a new funding window for AI-enabled social-science research.
- **Led AI adoption and data integrity** for the organization: designed and evaluated a pilot AI-assisted grant-review system (a multi-agent pipeline benchmarked against historical human-reviewer decisions); migrated monitoring & evaluation to a new database; and built AI-optimized internal knowledge and skill-repository systems to drive organization-wide adoption.
- **Support graduate research training**: mentor PhD students and postdocs through an impact fellowship, helping them build skills for impact-oriented research.

Doctoral Researcher, Department of Economics, Stanford University 2018 – 2024

Designed and ran field and online experiments (RCTs) in Sierra Leone, Zambia, and Colombia—leading study design, field operations, partnerships with governments and firms, large-scale data collection, and econometric analysis. See *Working Papers* below.

Academic Consultant, International Growth Centre (LSE) 2021, 2023

- Authored policy outputs translating academic evidence for government and funder audiences, including Zambia's Constituency Development Fund: Policy Considerations and Improving Women's Political Representation: Insights from Sierra Leone.
- Conducted the literature review on governance, state capacity, and climate change that informed the IGC Evidence Paper on State Effectiveness.

WORKING PAPERS

Candidate Entry into Local Government, with Katherine Casey, Abou Bakarr Kamara, and Niccolò Meriggi. Conditionally accepted as a pre-results registered report at *Journal of Development Economics*.

An Experiment in Decentralization: Evidence from the Zambian Constituency Development Fund, with Jeremy Bowles, Katherine Casey, and Danielle Handel. Working paper.

Informal Taxation in Rural Sierra Leone. Working paper.

The Limits of Exposure: Socioeconomic Diversity and Teamwork in College, with Leopoldo Fergusson and Juliana Londoño-Vélez. Working paper.

Too Much or Too Little Faith in Success? Experimental Evidence from Colombian Entrepreneurs, with Réka Zempléni. Working paper.

EDUCATION

Ph.D. in Economics, Stanford University 2018 – 2024

Fields: Development Economics, Political Economy, Causal Inference

M.A. in Economics, *cum laude*, Universidad de los Andes, Colombia 2015 – 2018

B.A. in Economics, *summa cum laude*, Universidad de los Andes, Colombia 2011 – 2015

EARLIER RESEARCH & TEACHING

Research Assistant to Katherine Casey, Stanford University 2019 – 2021

Econometric evaluation of a Community-Driven Development program and a public-expenditure audit protocol in Sierra Leone.

Research Assistant to Matthew Gentzkow, Stanford University 2019 – 2020

Experiment and survey design to measure technology addiction; literature synthesis across economics and psychology.

Research Assistant to Leopoldo Fergusson, Universidad de los Andes 2014 – 2018

Econometrics, network analysis, and GIS on protest diffusion; text analysis of prosecutorial records to evaluate a reform.

Teaching Assistant, Stanford University & Universidad de los Andes 2015–2018,
2020–2022

Microeconomics, game theory, behavioral economics, and advanced growth theory (undergraduate and master's level).

SELECTED TALKS & PRESENTATIONS

Research on Research Institute — *Evaluating AI Use in Grantmaking* Apr 2026

Impact Funders Forum — *Evaluating AI Use in Grantmaking* Feb 2026

Stanford King Center for Global Development — *Research Roadmap & Fieldwork Essentials* 2023, 2024

Association for Comparative Economic Studies (ACES) Summer Institute, LSE Aug 2022

GRANTS, FELLOWSHIPS & AWARDS

Governance Initiative Funding, Abdul Latif Jameel Poverty Action Lab (J-PAL) 2022, 2025

Stage 2 Fellowship to Study Decentralization in Zambia, Stanford Impact Labs 2023

Susan Ford Dorsey Innovation Africa Fellowship, Center for African Studies, Stanford 2022

Young Scholars Research Fund, International Growth Centre 2021

Fund for Research in Economics, The Weiss Fund 2021

Graduate Research Award, Stanford King Center for Global Development 2020

Moshe & Margaret Alafi Fellowship, School of Humanities & Sciences, Stanford 2018 – 2019

Best Undergraduate Student in Business & Economics, *Portafolio* Newspaper 2015

Ramón de Zubiría Award, Department of Economics, Universidad de los Andes 2014 – 2015

Academic Excellence Award, Department of Economics, Universidad de los Andes 2012 – 2013

Alberto Magno Scholarship, Universidad de los Andes 2011

SKILLS

AI & Research Automation: Agentic workflows (Claude Code-style harnesses and via API); AI evaluation & benchmarking; prompt & context engineering; MCP data integrations

Quantitative Methods: Causal inference, RCT / A-B test design, power analysis, SROI, cost-benefit analysis, econometrics

Qualitative Methods: Survey design, stakeholder interviews, focus groups

Programming & Tools: Python, R, SQL, Stata, ArcGIS, SurveyCTO, Qualtrics

Languages: Spanish (native), English (fluent)
